

Cincinnati Children's Hospital Medical Center, Division of Veterinary Services is searching for a Veterinary Services Coordinator

Cincinnati Children's Hospital is one of the top 2 pediatric facilities nationwide according to US News and World Report. We are devoted to exceptional patient care and renowned research and have the largest pediatric research program in the Midwest.

We are searching for a Veterinary Services Coordinator to join our management team. This full time position would participate in the management, planning, design, measurement and assessment of services in the husbandry or cage wash areas of the Veterinary Services Division of a medical Center dedicated to the care of infants, children and adolescents. Qualified candidates must have a Bachelor's Degree in biological science or an associates degree in Veterinary Technology or equivalent. Additionally, 6 years experience in the care and husbandry of laboratory animals with a minimum of 3 years in a supervisory capacity.

In exchange for job dedication and superior work ethic we offer competitive salaries and a complete benefit package. If interested, please submit a resume and apply on-line at www.cincinnatichildrens.org. Please fax the resume to 513-636-3846. For additional information contact Dr. Gary Keller at 513-636-4441.
